EDA REACH Roadmap 2018 - 2020 (endorsed by 20 October 2017 EDA Steering Board)

Task Name	2017				2018												2019												2020											
	9	10	11	12	1	2	3	4	5	6	7	8	9	10	11	12	1	2	3	4	5	6	7	8	9	10	11	12	1	2	3	4	5	6	7	8	9	10	11	12
EDA Role in REACH Defence Matters (including Study Proposal 9.3.7)																																								
EDA REACH Plenary meetings covering all REACH Workpackages																																								
Administration of Technical Experts' Group (EDA REACH Task Force) covering specific REACH Workpackages																																								
Maintain EDA REACH Portal																																								
Interact with the European Commission																																								
Interact with the European Chemical's Agency (ECHA)																																								
Interact with Defence Industry																																								
Interact with Sectoral Stakeholders (e.g. EDA CapTechs)																																								
R&D Funding Schemes for Innovative Substitution (Study proposal 9.1.1)																																								
Collaborative R&T (Study Proposal 9.1.2)																																								
EC REACH Refit 2017 Outcome and related way-ahead for Defence																																								
Monitor progress of EC's REACH Refit 2017 process and engage in view of maximising the uptake of the following proposals and supporting their implementation: - Prolonged Annex XIV (authorisation) Timelines (Study Proposal 9.1.3) - Risk Management Option Analysis (RMOA) (Study Proposal 9.2.1) - Clarify REACH Links with Other EU Laws and Policies (Study Proposal 9.2.3) - Simplified Applications for Authorisation (AfAs), Specific Cases (Study Proposal 9.3.2) - REACH Art. 33 Revision (Study Proposal 9.3.4) - "Super" Downstream User (DU) Platform (Study Proposal 9.4.1) - EC REACH/CLP Single Web Hub (Study Proposal 9.4.3)																																								
Examine the EC REACH Refit 2017 Outcome																																								
Identify potential further actions and measures to support MS in minimising Impact of REACH on Defence																																								
Implement actions and measures identified to support MS in minimising Impact of REACH on Defence																																								
Engage with ECHA on the implementation of the following EDA Study Proposals (addressed to ECHA): - Substance Tracking Tool (Study Proposal 9.4.2) - Authorisation Exemption Guidance (Study Proposal 9.4.4)																																								
EDA REACH Code of Conduct (including Study Proposals 9.3.6 and 9.5.7)																																								
Harmonization of REACH Defence Exemptions																																								
EU-Transnational Use of REACH / Joint Defence Exemptions / Complex CoC Scenarios (incl. in Study Proposals 9.3.6 and 9.5.7)																																								
Transparency of REACH Art. 2(3) Procedures and Decisions (Study Proposal 9.5.1)																																								
Ammunition Classification under REACH (including Study Proposal 9.5.5)																																								
Ammunition Classification Stage 1 (MS Common Position on Ammunition Classification)																																								
Assessment of Feedback from Stakeholders on Ammunition Classification Stage 1 Outcome (MS Common Position)																																								
Ammunition Classification Stage 2																																								
EU-level Clarification - are MoDs / Armed Forces REACH Addressees? (Study Proposal 9.3.5)																																								
Align Procurement Contract Terms with REACH (Study Proposal 9.5.3)																																								
REACH Art. 33 Implementation - Common Approach (Study Proposal 9.3.3)																																								
Study on Consistency of EU Chemicals' / Products' Laws Impacting Defence (Study Proposal 9.2.2)																																								
Ammunition CLP Labelling (Study Proposal 9.5.6)																																								
Fit-for-Purpose (F4P) Military Applications for Authorisation (AfAs) (Study Proposal 9.3.1)
