CALL FOR PROPOSAL

QUESTION N. 1

The Call mentions, in section ‘3.2.- *Eligibility check*’, that an eligibility criteria is to be in possession of the necessary accreditation to handle classified information. There is no mention in the call text about the security clearance level required for each Pilot Project topics. Could you please give us an idea about the required accreditation level?

ANSWER N. 1

The required accreditation level will depend on the level of classified data which is intended to be used and/or produced.

If the overall classification of the project proposal is unclassified there is no need to present security clearances.

QUESTION N. 2

If the eligibility criteria requests consortium members to demonstrate their accreditation level to handle classified information, the follow sentence in page 12 is confusing “...*they shall be able to produce a security clearance at the appropriate level obtained from their National Security Authority*”. Could you please clarify whether the clearance is requested in any or all of the Pilot Project topics?

ANSWER N. 2

The level of security depends on the specific project proposal. If the specific project proposal indicates in the submission form that there is as security level, then the necessary security clearances should be provided. In the item of the submission form (‘*security*’) you should indicate whether security issues apply; if so, you should thus provide the appropriate forms.

QUESTION N. 3

In case the accreditation to handle classified information is needed, should our National Security Authority inform EDA directly?

ANSWER N. 3

In case of Facility Security Clearances (FSC), Yes. EDA security shall have received confirmation from the relevant National Security Authorities/Designated Security Authorities (NSA/DSA) that an appropriate FSC has been issued.

In case a project indicates that there is classified information, Personnel Security Clearances (PSC) need to be provided.

Which one is correct, 12 or 18 months?

ANSWER N. 8

The project duration of PP-15-INR-01 is 12 months (see page 5).

It is foreseen that one project per topic will be awarded a grant agreement. A reserve list, with a number of proposals, is established indeed for the cases (article 4.2 of the Call for Proposal) of failure of negotiations, withdrawal of proposals and/or savings.

QUESTION N. 10

A clearly defined page limit of 70 pages is given for sections 1, 2 and 3 of part B of the proposal. Does this mean that section 4 (information on Participants and Security) is excluded from the page limit?

QUESTION N. 14

I would like to request additional information on the topic *PP-15-INR-01: Unmanned Heterogeneous Swarm of Sensor Platforms*.

In the call text for this topic the following is stated: The project should demonstrate, through a live experimentation (...). However in the expected output and objectives a first level description and specification is asked.

Can you please clarify if there needs to be a live experimentation or only a paper study (first level description and specification)?

ANSWER N. 14

The expected output can't be a live demonstration as such, but the study should contain experiments. The output will be based on paper studies and an assessment (through Roadmaps, SWOT, specifications, ...) of real/simulated (or Live-Virtual) experimentation of solutions/architectures. The experiments are to highlight the gaps to fill, to investigate the interest/danger of such or such architecture, but it has not to be considered as an output.

The output will be based on the evaluation of theoretical and practical assessments.

MODEL GRANT AGREEMENT

ANSWER N. 2

Yes

QUESTION N. 3

Is there a Security Aspect Letter template?

ANSWER N. 3

The Security Aspect Letter will be added to the draft contract in case the project is decided to be at determined classification level.

QUESTION N. 4

In the Model Grant Agreement (MGA), Article II.7, references are made to Annex I and Annex 1, respectively.

It is our understanding that Annex I refers to the Description of the Action (in principle the Proposal submitted in accordance with the Submission form). Is this correct?

ANSWER N. 4

Yes. The reference should be only to Annex I (Description of the Action). The reference will be modified.

QUESTION N. 5

Article II.7.2 states that the security requirements in the Security Classification Guide (SCG) are set out in Annex 1. Is this referring to the Commissions provisions on security mentioned under 2.1. General principles in Annex 1? Please advise.

ANSWER N. 5

No. The article should be read:

‘...Activities related to ‘classified results’ (see Annex I) must comply with the ‘security requirements’ (Security Aspect Letter (SAL) and the Security Classification Guide (SCG)) set out in Annex I until they are declassified...’

QUESTION N. 6

Article II.7.2 – Classified results, states “Activities related to ‘classified results’ (see Annex I)”. It is not clear to us what the reference to Annex I means in this context, other than the “Y/N” indication under the heading “Security” of section 4 in the Submission Form. Please advise.

ANSWER N. 6

If you indicated in section 4 of the Proposal Submission Form that your proposal will involve activities or result raising security issues or ‘EU classified information’ as background or results, you should make reference of this in the Description of the Action (Annex I).

Annex I, Description of the Action, will include the final version of the proposal as result of the negotiation phase.
