

# GRAPHIC CHARTER

SEPTEMBER 2020

# INTRODUCTION

This graphic charter presents the visual identity of the European Defence Agency (EDA). It describes all the elements that constitute it and sets out the rules to apply on all communication products.

The purpose of this graphic charter is to give EDA a consistent and uniform image.

This charter must be followed whenever EDA staff, external partners, contractors or stakeholders communicate or produce communication materials on behalf of the Agency.

## FOR QUESTIONS REGARDING THE USE OF THIS CHARTER OR REQUESTS FOR FILES, PLEASE CONTACT:

# LOGOTYPE

# PRESENTATION

EUROPEAN  
DEFENCE  
AGENCY

The EDA logotype (in its reference version) is made up of two elements:

- › **The logo** itself, representing the superposition of several flags in 'fluttering' form and the yellow stars of the European Union (referred to as the 'symbol').
- › **The wording 'European Defence Agency'**. The rules outlined below for the application of the logotype must be followed. Any alterations to the colours and shapes of the symbol and lettering are not permitted.

**IT IS COMPULSORY TO USE THIS VERSION OF THE LOGO IN ALL CASES, WITH THE EXCEPTION OF THE SPECIAL CASES EXPLAINED ON THE FOLLOWING PAGES.**

LOGOTYPE

**NO ELEMENT CAN IMPAIR THE CLARITY OF THE LOGO.**

#### WHITE SPACE

To avoid interrupting the reading of the logotype, a white space has been created. This space is double the distance between the letters (EDA vertically) and the symbol (represented above by a black 'x'). No graphic element (image, object, writing, etc.) can appear in this area.

The colours presented in the logo are the corporate colours to be used in EDA documents. *More information can be found in the chapter 'Identity tools > Corporate colours' on page 17.*

#### MINIMUM SIZE

The width must not be less than 25 mm. For use on a narrower format, another version of the logo or the text-only version will be used (*example in the chapter 'Identity applications > Promotional items' on page 55*).

**THE MINIMUM size is 25 mm wide.**

# VARIANTS

## REFERENCE LOGO

### REFERENCE LOGO – CMYK/RGB

- › **Use:** In all cases except special cases.
- › **Background:** On a white or pale background.
- › **Minimum size:** Width 25 mm.

### REFERENCE LOGO – CMYK/RGB

- › **Use:** in special cases when the background cannot be white.
- › **Background:** On coloured background or on a photo background that is sufficiently dense and undisturbed.
- › **Minimum size:** Width 25 mm.

### REFERENCE LOGO – GREY

- › **Use:** For Microsoft Word and for printing in one colour (black).
- › **Background:** White background only.
- › **Minimum size:** Width 25 mm.

# WHAT NOT TO DO

No element or colour of the reference logo and its variants can be modified. **DO NOT:**

› change the font of the logo.

› change the colours of the logo.

› change the shape of the logo.  
(except for 3D simulations in perspective).

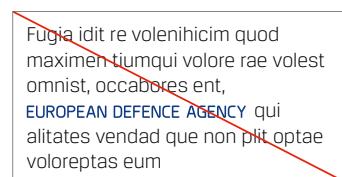

› fail to maintain the space  
between the lettering and the  
symbol AND/OR the white space.

› change the proportions of the  
elements of the logo.

› slope the logo.

› insert the logo into a text.

› place the logo in a low resolution  
which would make it pixelated.

› apply an effect to the logo (e.g.  
drop shadow).

› place the logo on a background  
using an unsuitable version.

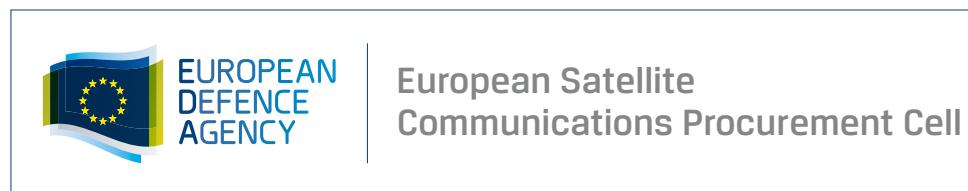

› change the position of the logo  
elements.

FOR CONCRETE EXAMPLES,  
REFER TO THE CHAPTER 'IDENTITY  
APPLICATIONS' FROM PAGE 21.

**Important:** The rules for applying the logotype must be followed. Any alterations to the colours and shapes of the symbol and lettering is not permitted.

# SPECIFIC USAGE

NEW EDA PROJECT/STUDY/INITIATIVE/ETC.

FOR ALL NEW PROJECTS, YOU  
MUST FOLLOW THIS EXAMPLE.

This logo is made up of the EDA reference logo on the left and the project name on the right. These two items are separated by a vertical line. If the logo varies in size, the thickness of the line (and the title block) must still remain proportional to the source file.

To determine the white spaces, you should use the space indicated by the black 'x' as a reference point. The project name must always be written in full and on a maximum of 2 lines. These 2 items separated by a line are placed in a white title block with a blue border.

It may therefore be placed on both a pale and a dark background. If the project name is longer than in our example, you must extend the title block to the right whilst ensuring that you keep the two white spaces 'x' between the start of the word and the frame.

LOGOTYPE

PARTNERSHIP

This logo is made up of the EDA reference logo on the left and the partner logo(s) on the right. If the logo varies in

size, the thickness of the line (and the title block) must still remain proportional to the source file.

To determine the white spaces, you should use the space indicated by the black 'x' as a reference point. This logo is only used on a white background.

# IDENTITY TOOLS

# CORPORATE FONT

Fonts constitute a major element of EDA's graphic style. The font used for corporate documents is BREUER. The logo baseline also uses Breuer.

# CORPORATE COLOURS

The colours presented below have been defined so as to offer a wide range for the creation of your documents. These shades constitute the basis for the creative palette.

The values may be adapted to add to the graphic possibilities.

It is compulsory to use these colours. You can use these colours in flat tints, gradients, etc. For gradients, you must only use one colour (in several shades). You may not use pink or red.

# BASELINE

Together  
for a stronger Europe

FONT SIZE: 50 PT (10/10 OF 'TOGETHER' FONT SIZE).

FONT SIZE: 30 PT (6/10 OF 'TOGETHER' FONT SIZE).

LEADING: 35 PT (7/10 OF 'TOGETHER' FONT SIZE).

FONT SIZE: 30 PT (10/10 OF 'TOGETHER' FONT SIZE).

FONT SIZE: 18 PT (6/10 OF 'TOGETHER' FONT SIZE).

LEADING: 21 PT (7/10 OF 'TOGETHER' FONT SIZE).

Together  
for a stronger Europe

## USE OF THE BASELINE WITHOUT THE LOGO:

› **Use:** Used outside of the logo. (e.g. for a title)

› **Font:**

- Breuer Text Light.
- You must keep the proportions of the font size.  
'Together' is used as a marker. 'for a stronger

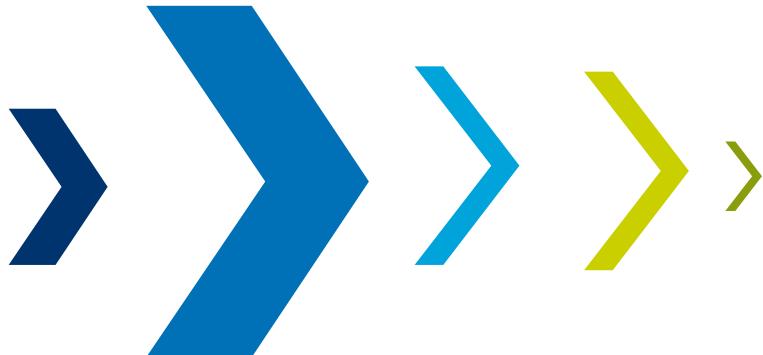

'Europe' has a ratio of 6/10 vis-à-vis 'Together'  
(example: 50pt/30 pt).

- The same principle applies for leading which is 7/10 of the 'Together' font size (e.g. font size 50 pt - leading 35 pt).
- Always ragged alignment (left or right).

- Font size ≥ 7.5 pt.

› **Colours:** Always place a hard colour on a pale background and vice versa on a dark background.

# ARROWS

» Breuer Text Light  
» Breuer Text Regular  
» Breuer Text Bold

THE ARROWS ARE TAKEN FROM THE FRENCH SPEECH MARK IN THE BREUER FONT.

## ARROWS:

Created from the French speech mark in the BREUER font, they may be used in bold, regular, light, etc. They can then be vectorised, and can be the size, thickness and colour of your choice.

# VISUALS

**MCU HAS TO APPROVE THE SELECTED VISUALS BEFORE PRODUCTION.**

## IMAGE ENVIRONMENT:

Above are a few generic images that have been created for the EDA. Each visual must be approved by the EDA Media and Communication Unit (MCU).

It is recommended to use a variety of pictures from different Member States and to not favour one domain over another.

In addition, preference must be given to capabilities produced in Europe.

# IDENTITY APPLICATIONS

# PUBLISHING

On each communication product published and produced by and for the European Defence Agency, the logo will be positioned in a white banner on the top left side in order to create recognisable branding. The exact measurements, positioning and exceptions are described on the following pages.

In general, no text will be written in the white banner reserved for the logo. Some exceptions are allowed for smaller visuals and promotional items. These are described in more details in this chapter.

The templates presented on the following pages are available upon request.

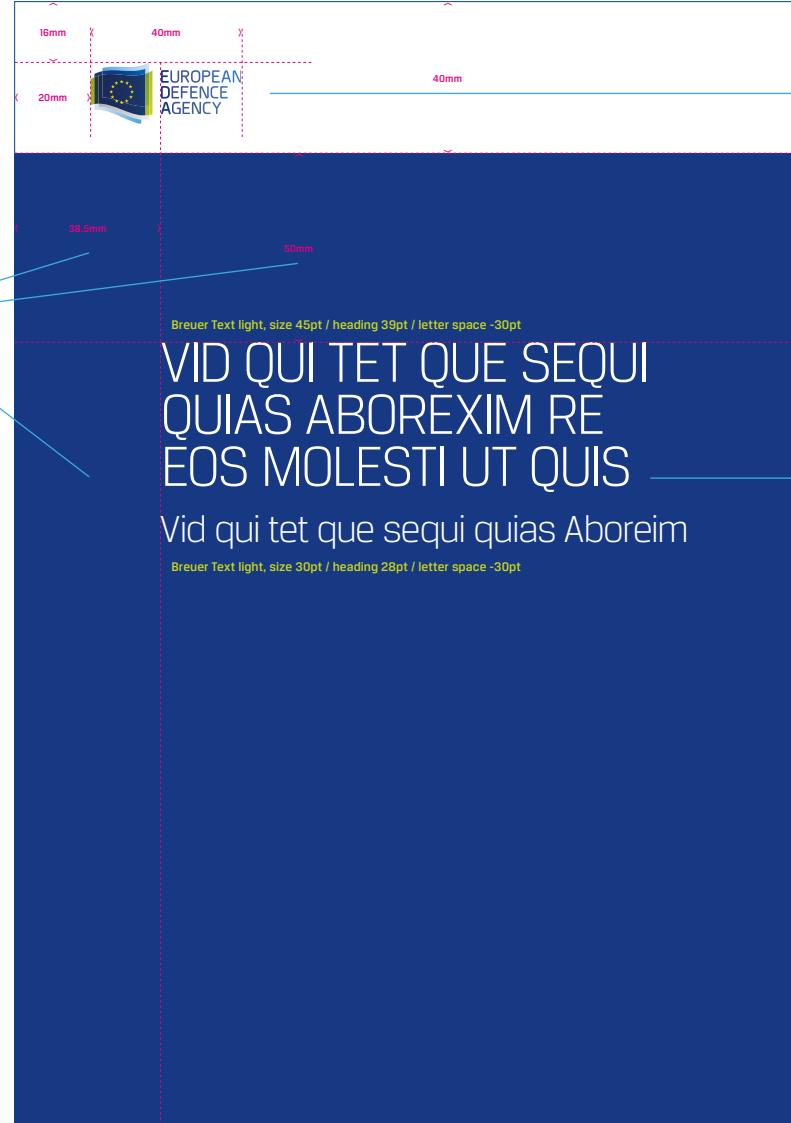

The general recommendations below are to be taken into account:

- › Keep the layout airy, stylish and simple
- › Do not overcrowd
- › Do not use all of the EDA colours at the same time
- › All communication products have to be approved by MCU including any deviation from these rules or recommendations.

**ON THE FOLLOWING PAGES, RULES TO BE RESPECTED  
ARE INDICATED IN RED AND RECOMMENDATIONS TO FOLLOW  
ARE IN GREEN.**

VERTICAL A4 COVER - GRID SYSTEM

NO TEXT IN THESE  
BREATHING ZONES.

ON AN A4 STANDARD COVER, THE POSITION AND SIZE OF THE LOGO ARE FIXED AS SHOWN HERE, TOGETHER WITH THE SIZE OF THE WHITE BANNER.

THE TITLE AND SUBTITLE SHOULD BE AT LEAST THE RECOMMENDED SIZE. THEY CAN BE BIGGER IF THERE IS LESS TEXT AND THE VISUAL ALLOWS IT. THEY SHOULD BE ALIGNED VERTICALLY TO THE LOGO AS SHOWN AND CAN BE PUT LOWER IN THIS ZONE IF THE VISUAL REQUIRES IT.

## EXAMPLE OF SB INFORMATION-FOOD PAPER

# POWERPOINT

It is mandatory to use the PowerPoint template available on the EDA Portal.

- › **Font:** The font to be used for PowerPoint slides is Arial, Arial body and Arial Narrow (the font is preset for the title and text body, but you should check that it is maintained when creating new text elements). The minimum recommended font size for a presentation is 16.
- › **Important:** Do not use red or pink, or shadows.
- › **Colours:** Use of the predefined palette on page 17 is recommended.
- › **Position of elements:** The logotype and its position, as well as the title and text alignments are preset and cannot be modified.

# EVENT COMMUNICATION

## BADGE

THE LOGO CAN BE POSITIONED IN A WHITE BANNER OR A BANNER IN ONE OF THE CORPORATE COLOURS. THE LOGO CAN ALSO BE POSITIONED IN THE EVENT-SPECIFIC VISUAL BACKGROUND, IF IT DOES NOT IMPAIR THE VISIBILITY OF THE LOGO.

FOR EDA EVENTS THE BADGE NEEDS TO CONTAIN EDA'S LOGO.

Badges do not have one standard size, so please check with your provider what size they should be. If the event has a recognisable visual, you can include it in the design.

**Font:** The font to be used is Breuer.

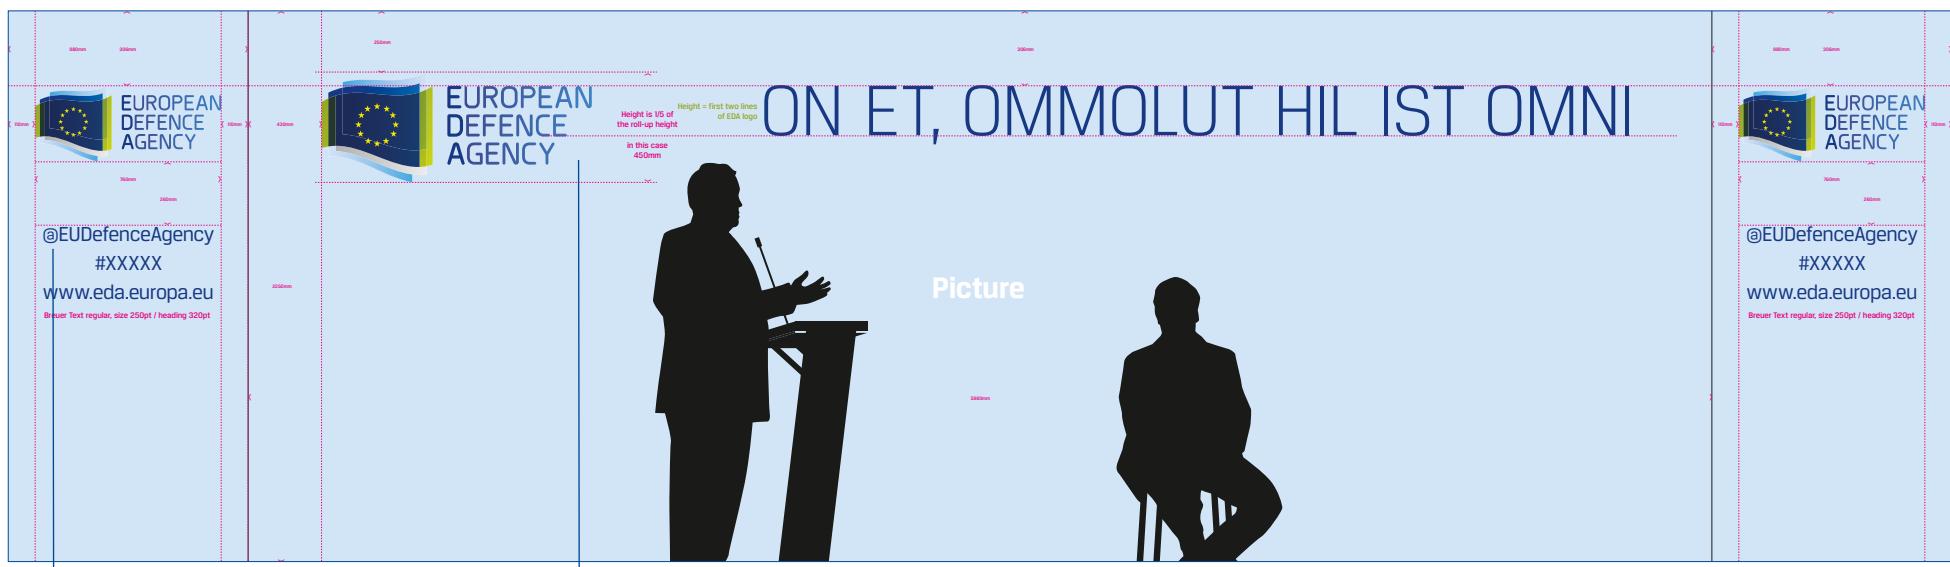

**Colours:** Use of the predefined palette on page 17 is recommended.

## STANDARD EVENT BACKDROP

This example is based on the backdrop of the EDA's Annual Conference. It demonstrates how to use the visual identity in such settings.

The designer should take into account the following elements:

- › Size of the room
- › Position of the standing speaker
- › Visibility and readability from first row until last row
- › Seating arrangement of speakers
- › Lighting

ALWAYS INCLUDE EDA'S SOCIAL MEDIA HANDLES, SPECIFIC EVENT HASHTAG IF APPLICABLE AND WEBSITE URL.

FOR EVENT COMMUNICATION, THE LOGO CAN BE ON TOP OF A COLOURED BACKGROUND, EITHER A CORPORATE COLOUR OR THE EVENT-SPECIFIC VISUAL IF IT DOES NOT IMPAIR THE VISIBILITY OF THE LOGO.

## SPEAKER LECTERN

A lectern has been used as an example to illustrate possible communication options during an event. It is important to take into account the following elements:

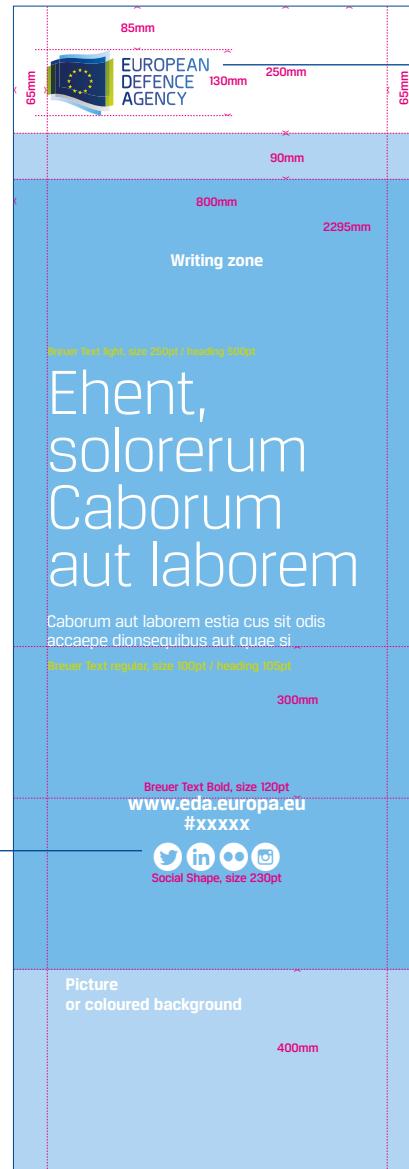

- › Size of the room
- › Visibility and readability from first row until last row
- › Visual or colour specific to the event

ALWAYS INCLUDE EDA'S SOCIAL MEDIA HANDLES, SPECIFIC EVENT HASHTAG IF APPLICABLE AND WEBSITE URL.

**ROLL-UP BANNER - GRID SYSTEM**

ALWAYS INCLUDE EDA'S SOCIAL MEDIA ICONS, SPECIFIC EVENT HASHTAG IF APPLICABLE AND WEBSITE URL.

THE POSITION AND SIZE OF THE LOGO ARE FIXED AS SHOWN HERE, TOGETHER WITH THE SIZE OF THE WHITE BANNER.

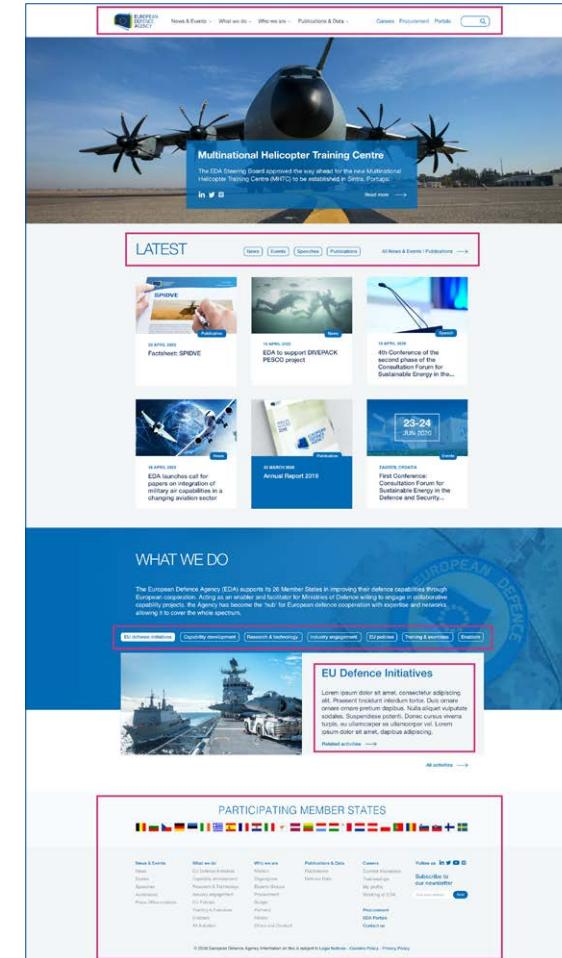

# EDA PORTALS

In order to create a familiar relationship with the EDA website, EDA Portals have to reflect the look & feel of the EDA website and apply the same design principles.

Elements/principles to be applied:

- › Use of EDA website header look & feel (i.e. cobranded EDA logo, logo positioning, navigation menu display, colours, behaviour & mouse hover effects).
- › Fixed 1300px main content area and use of the existing EDA website templates.
- › Use of EDA predefined font styles (i.e. section title, paragraph titles and paragraph text, links).
- › Use of 16/9 ratio pictures.
- › Use of EDA corporate colours (see page 17).
- › Use of EDA website UI elements (buttons, links, filters, dropdowns, icons).
- › Use of EDA footer look & feel.
- › Keep Portal's design simple: Make use of white space to communicate clearly and limit the number of graphic elements to improve legibility.

**DESIGN PROPOSALS FOR EDA PORTALS HAVE TO BE SUBMITTED TO MCU FOR APPROVAL BEFORE GOING LIVE. IT IS RECOMMENDED TO INVOLVE MCU FROM THE OUTSET OF AN EDA PORTAL DEVELOPMENT PROCESS NOT ONLY TO ENSURE APPLICATION OF THE EDA LOOK & FEEL BUT ALSO TO RECEIVE RECOMMENDATIONS IN TERMS OF USER-FRIENDLINESS.**

**EXAMPLE OF UI ELEMENTS**

The screenshot shows the European Defence Agency website header at the top, featuring the agency's logo, navigation links (News & Events, What we do, Who we are, Publications & Data, Careers, Procurement, Portals), and a search bar. Below the header is a large image of a military aircraft (likely a Cessna Caravan) with two smaller aircraft flying above it. A blue overlay box contains the text "Multinational Helicopter Training Centre" and a brief description: "The EDA Steering Board approved the way ahead for the new Multinational Helicopter Training Centre (MHTC) to be established in Sintra, Portugal." It also includes social media icons for LinkedIn, Twitter, and Facebook, and a "Read more" link.

The screenshot shows a news feed section titled "LATEST". It includes a header with "LATEST" and buttons for "News", "Events", "Speeches", and "Publications", along with a "All News & Events | Publications" link. Below the header are four news items displayed in a grid:
