

## STRATEGIC CONTEXT CASES – INDUSTRY CONSULTATION PORTAL

### - CALL FOR CONTRIBUTIONS -

*PHASE 1 - INCEPTION: 1 October 2018 - 30 November 2018*

1. Within the scope of the priority explored, what are the main (maximum 5) challenges to tackle to improve the overall coherence of defence capability development in the EU. Those challenges can for instance be related to a technology, a regulatory framework, a standardization issue, an industrial process, a non-EU dependency, a way to improve the system upgrade, etc.
2. For each main challenge identified, what would be the successive steps you would recommend to take to properly and efficiently tackle the challenge. Please feel free to refer to any existing study or report.
3. Overall the question should be answered for each of the priorities and the associated modules<sup>1</sup> constituting the priority: “what has to be done to make the European capability landscape more coherent in this specific area?”

---

<sup>1</sup> Please see the associated modules in the [Capability Development Fact Sheet](#).
