

# At a glance: EDA support to EU CSDP missions and operations

## Current EDA services available to all CSDP missions and operations on request

- Satellite communication services provided through EU Satcom Market
- Communication & information services through EU Satcom Market
- Governmental satellite communication services provided under EDA's pooling and sharing project
- Geospatial Information (GeoHub) provided under the EDA/SatCen 'GISMO' project
- EDA's Maritime Surveillance Network (MARSUR)
- AIRMEDEVAC framework contract
- Diplomatic Clearance Technical Arrangements for overflight/landing of military aircraft \*\*\*\*
- EDA cyber awareness seminars
- Human Resources (HR) management tool developed at EDA
- Radio Spectrum management tool (available by the end of 2021)

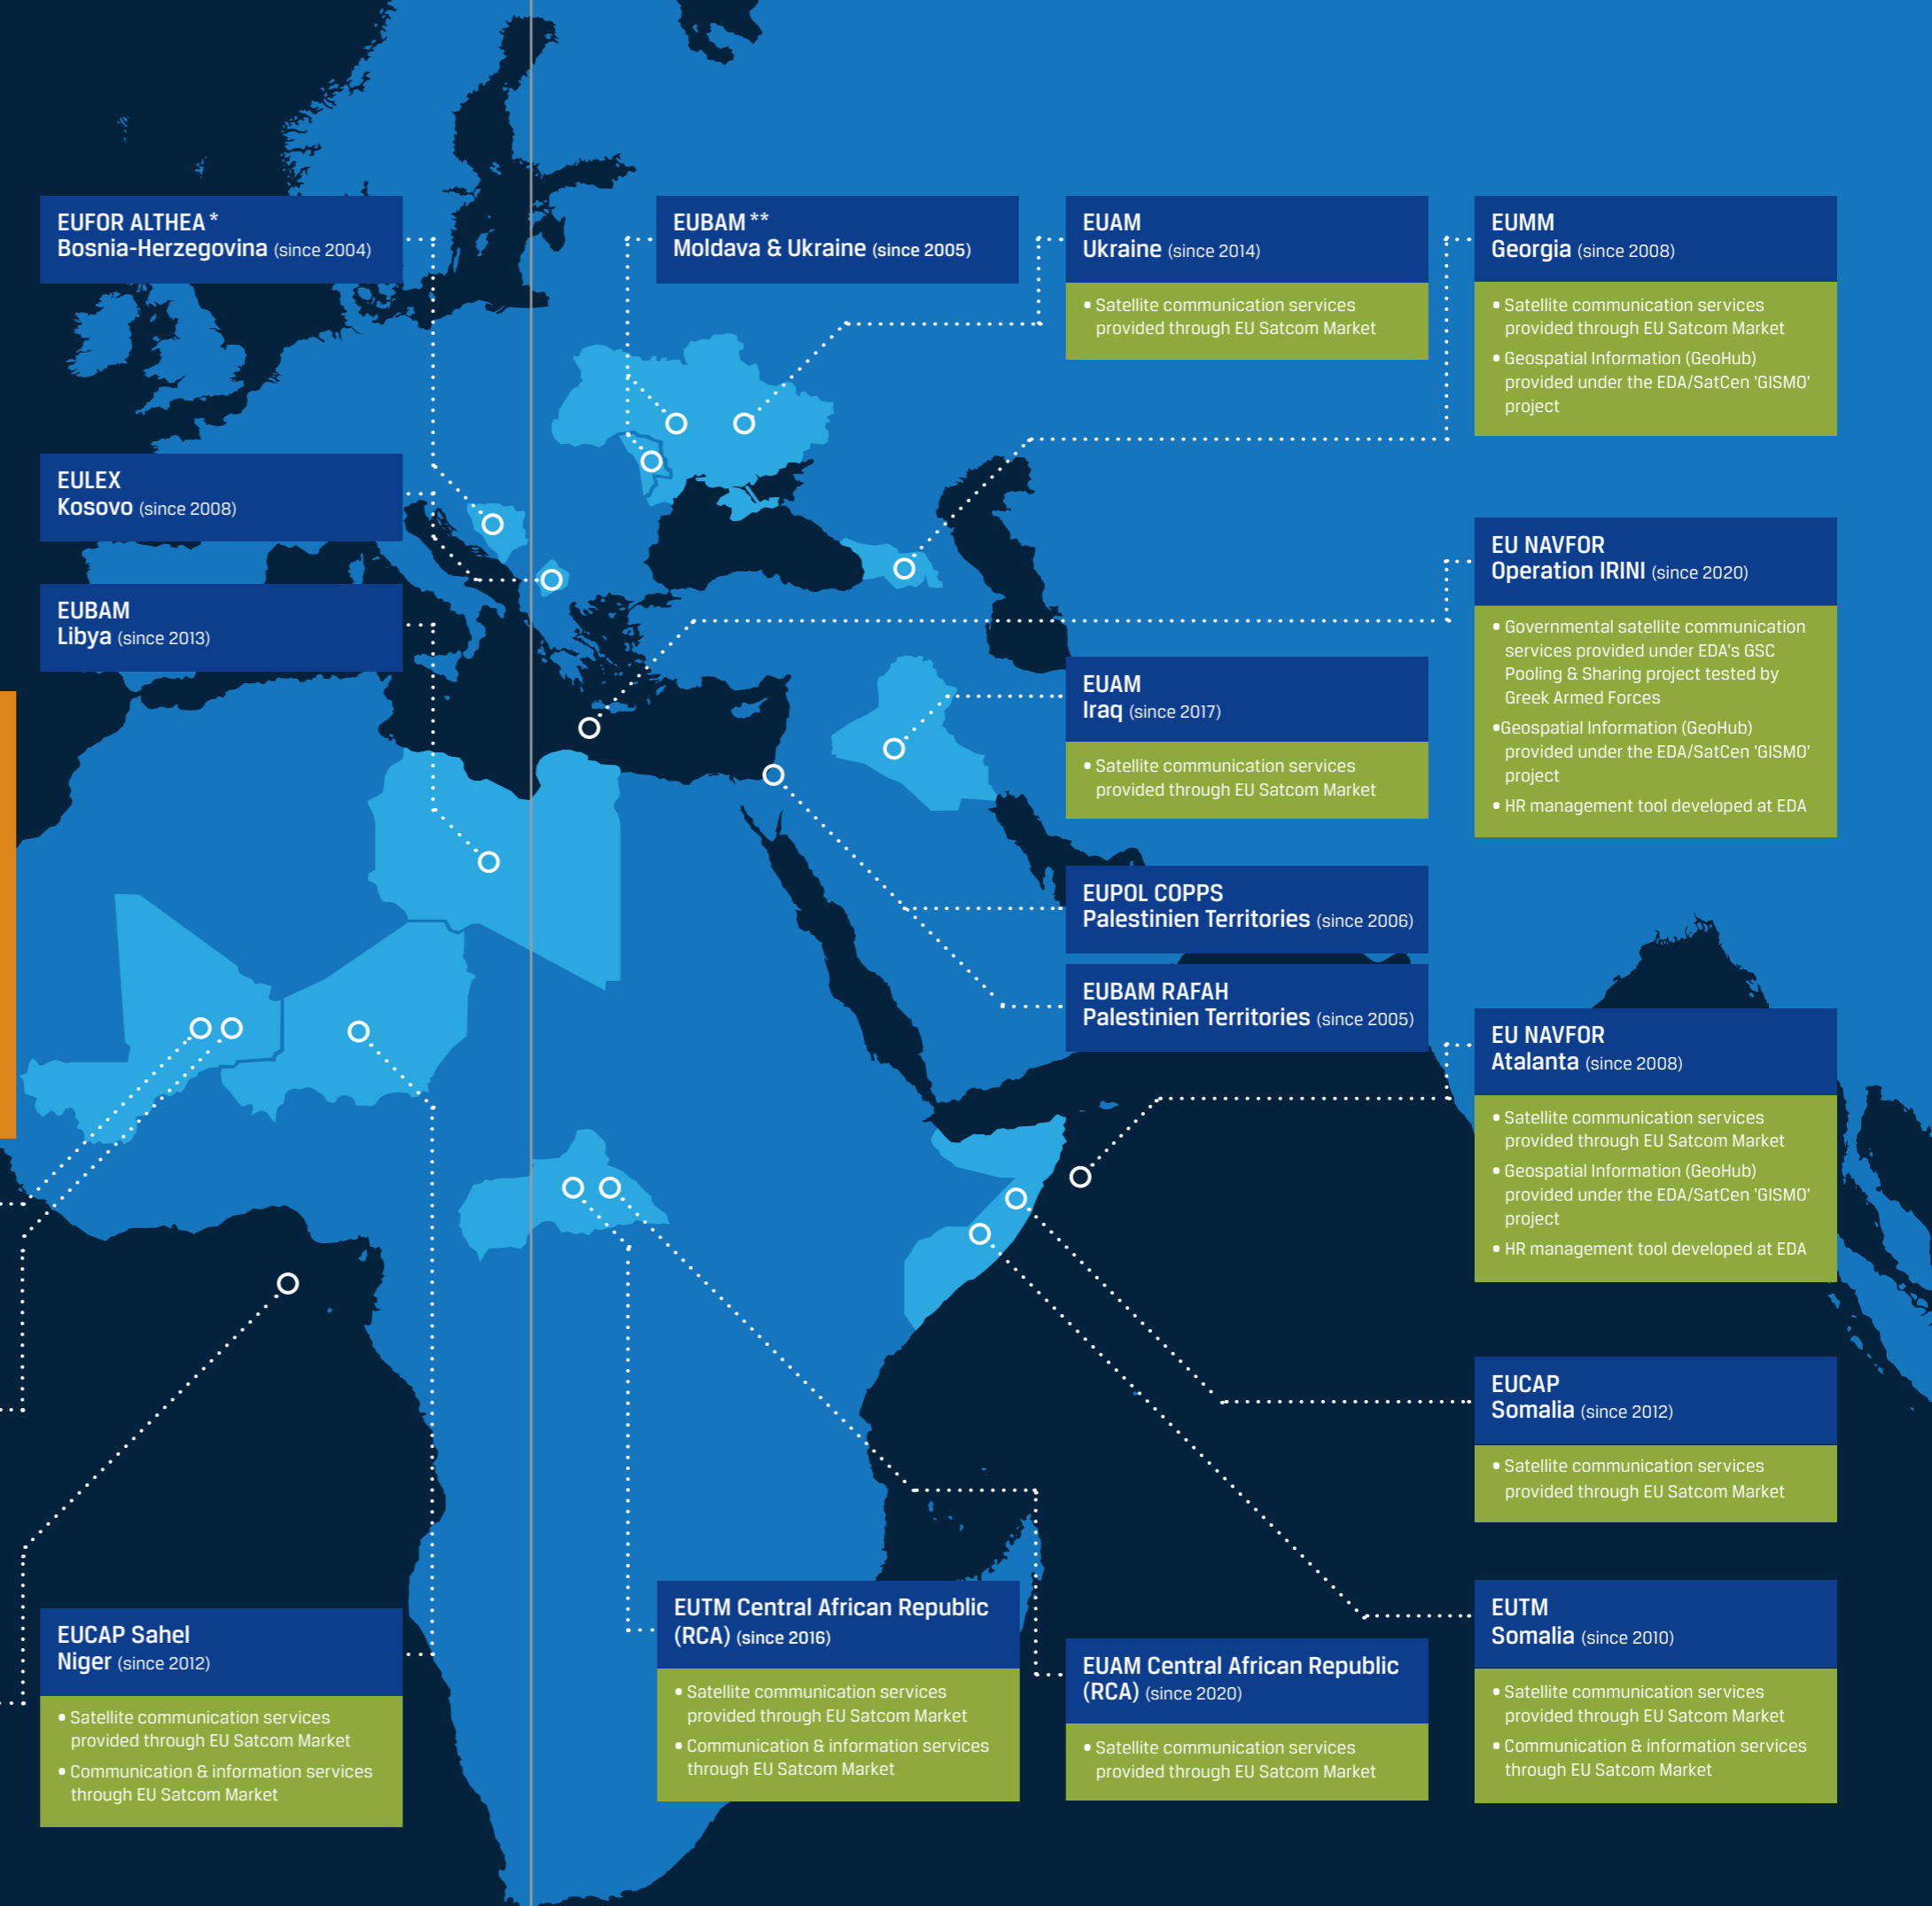

- Currently or previously provided EDA support and services
- Services that could be provided on request

\* The operation is conducted under the Berlin + arrangements with the NATO SHAPE acting as the EU Operational HQ

\*\* This Mission is not managed within CSDP structures, but its objectives are very similar to the other Missions, so we include it here

\*\*\* The CMP is not a traditional CSDP Mission/Operation but a new form of EU operational engagement launched in 2021

\*\*\*\* The DIC TA is a standing arrangement that automatically supports any mission of transport aircraft of its signatories
