

Question answer 4

14.CAT.OP. 034 - Requirements and Landscaping Study on Maritime Surveillance Networking (MARSUR) extension

Question:

To what extend is it allowed to share with our sub-contractor the documentation available from EDA against signature of a “nondisclosure agreement”?

Answer:

As you signed a non-disclosure agreement you are not allowed to disclose the information to any 3rd party including also any subcontractor. A nondisclosure agreement(NDA) duly signed by the sub-contractor should be addressed to EDA with his/her request for the documentation. If the time would have allowed for it, EDA may have decided to grant the sub-contractor access to the document subject to NDA.
