The report shall include a description of the problem and an indication of the date on which it started and of the remedial action taken by the Contractor to ensure full compliance with his obligations under the Contract. In such event the Contractor shall give priority to solving the problem rather than determining liability.

- II.1.9.** Should the Contractor fail to perform his obligations under the Contract in accordance with the provisions laid down therein, the Agency may - without prejudice to its right to terminate the Contract - reduce or recover payments in proportion to the scale of the failure. In addition, the Agency may impose penalties or liquidated damages provided for in Article II.16.

A copy of the instructions given and the undertakings made in this respect shall be sent to the Agency should it so request.

ARTICLE II.4 – PAYMENTS

II.4.1. Pre-financing:

Where required by Article I.4.1, the Contractor shall provide a financial guarantee in the form of a bank guarantee or equivalent supplied by a bank or an authorised financial institution (guarantor) equal to the amount indicated in the same Article to cover pre-financing under the Contract. Such guarantee may be replaced by a joint and several guarantee by a third party.

The guarantor shall pay to the Agency at its request an amount corresponding to payments made by it to the Contractor which have not yet been covered by equivalent work on his part.

The guarantor shall stand as first-call guarantor and shall not require the Agency to have recourse against the principal debtor (the Contractor).

The guarantee shall specify that it enters into force at the latest on the date on which the Contractor receives the pre-financing. The Agency shall release the guarantor from its obligations as soon as the Contractor has demonstrated that any pre-financing has been covered by equivalent work. The guarantee shall be retained until the pre-financing has been deducted from interim payments or payment of the balance to the Contractor. It shall be released the following month. The cost of providing such guarantee shall be borne by the Contractor.

II.4.2. Interim payment:

At the end of each of the periods indicated in Annex I, upon receipt of the relevant acceptance certificate, the Contractor shall submit to the Agency a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- an interim technical report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer;
- statements of reimbursable expenses in accordance with Article II.7;
- a copy of the relevant acceptance certificate.

If the report is a condition for payment, on receipt the Agency shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Agency does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations or information enclosed.

Where the Agency requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

II.4.3. Payment of the balance:

Within sixty days of completion of the tasks referred to in Annex I, upon receipt of the relevant acceptance certificate, the Contractor shall submit to the Agency a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- a final technical report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer;
- statements of reimbursable expenses in accordance with Article II.7;
- a copy of the relevant acceptance certificate.

If the report is a condition for payment, on receipt the Agency shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Agency does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations and information enclosed.

Where the Agency requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

ARTICLE II.5 – GENERAL PROVISIONS CONCERNING PAYMENTS

II.5.1. Payments shall be deemed to have been made on the date on which the Agency's account is debited.

II.5.2. The payment periods referred to in Article I.4 may be suspended by the Agency at any time if it informs the Contractor that his payment request is not admissible, either because the amount is not due or because the necessary supporting documents have not been properly produced. In case of doubt on the eligibility of the expenditure indicated in the payment request, the Agency may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is eligible.

The Agency shall notify the Contractor accordingly and set out the reasons for the suspension by registered letter with acknowledgment of receipt or equivalent. Suspension shall take effect from the date of dispatch of the letter. The remainder of the period referred to in Article I.4 shall begin to run again once the suspension has been lifted.

II.5.3. In the event of late payment the Contractor may claim interest within two months of receiving the payment. Interest shall be calculated at the rate applied by the European Central Bank to its most recent main refinancing operations (*"the reference rate"*) plus seven percentage points (*"the margin"*). The reference rate in force on the first day of the month in which the payment is due shall apply. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable for the period elapsing from the calendar day following expiry of the time limit for payment up to the day of payment. Suspension of payment by the Agency may not be deemed to constitute late payment.

ARTICLE II.6 – RECOVERY

- II.6.1.** If total payments made exceed the amount actually due under the Contract or if recovery is justified in accordance with the terms of the Contract, the Contractor shall reimburse the appropriate amount in euro on receipt of the debit note, in the manner and within the time limits set by the Agency.
- II.6.2.** In the event of failure to pay by the deadline specified in the request for reimbursement, the sum due shall bear interest at the rate indicated in Article II.5.3. Interest shall be payable from the calendar day following the due date up to the calendar day on which the debt is repaid in full.
- II.6.3** In the event of failure to pay by the deadline specified in the request for reimbursement, the Agency may, after informing the Contractor, recover amounts established as certain, of a fixed amount and due by offsetting, in cases where the Contractor also has a claim on the Agency that is certain, of a fixed amount and due. The Agency may also claim against the guarantee, where provided for.

ARTICLE II.7 - REIMBURSEMENTS

- II.9.2. The Contractor shall obtain from each member of his staff, board and directors an undertaking that they will respect the confidentiality of any information which is linked, directly or indirectly, to execution of the tasks and that they will not divulge to third parties or use for their own benefit or that of any third party any document or information not available publicly, even after completion of the tasks.

- II.10.2 The Contractor shall have right of recourse at any time to the European Data Protection Supervisor.
- II.10.3 Where the Contract requires the processing of personal data by the Contractor, the Contractor may act only under the supervision of the data controller, in particular with regard to the purposes of the processing, the categories of data which may be processed, the recipients of the data, and the means by which the data subject may exercise his/her rights.

- II.11.3.** Any distribution or publication of information relating to the Contract by the Contractor shall require prior written authorisation from the Agency and shall mention the amount paid by the Agency. Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as force majeure unless they stem directly from a relevant case of force majeure.

TABLE OF CONTENT

Introduction

General Instructions

Classification

Elements Table

Introduction

As stated in the Council Security Rules 2013/488/EU (CSR), prior to launching the call for tender and letting this classified contract, the EDA, as the contracting authority, has determined the security classification of any information that has been provided to bidders or contractors, as well as the security classification of any information that has to be created by the contractor. For that purpose, the EDA has prepared this Security Classification Guide (SCG) to be used for the performance of the contract.

The overall level of classification of this contract may not be lower than the highest classification of any of its elements. At this respect, the overall classification is **CONFIDENTIEL UE/EU CONFIDENTIAL**

This SCG may be expanded throughout the life of this contract and the elements of information may be re-classified or downgraded.

The SCG has two parts: the *General Instructions* and the *Elements Table*

General Instructions

With regard to European Union Classified Information (EUCI) created or handled by the contractor or subcontractor, the rights incumbent on the originator shall be exercised by the EDA, as the contracting authority (see point 23, Annex V of CSR). In this respect, EUCI created during the performance of this contract should bear the originator identifier as explained further below in these general instructions (markings).

EDA, as originator, retains control of every EUCI which created under the performance of this contract. This means that its prior written consent must be sought before EUCI is:

- (a) downgraded or declassified;
- (b) used for purposes other than those established by the originator;
- (c) disclosed to any third State or international organisation;
- (d) disclosed to another contractor or prospective contractor.

EUCI in electronic form may only be created on CIS accredited by the competent Security Accreditation Authority. The classified information itself as well as the filename and storage device (if external, such as CD-ROMs or USB sticks) must bear the relevant security classification marking.

Hardcopies or electronic versions of documents (e.g. studies, reports, analysis, specifications and descriptions, technical requirements, performances or any other documentation) as well as data storage media (e.g. floppy disks, compact disks, CD ROMS, DVD, MP3, memory sticks, microchips, etc.) containing information generated in connection with the Contract shall be assigned an EU security classification as prescribed in this appendix. This includes copies, reproductions, extracts or any other derivatives of documents or data storage media containing such EUCI.

Unless otherwise specified hereafter each document or data storage media shall bear the overall security classification level at maximum **CONFIDENTIEL UE/EU CONFIDENTIAL**.

In case documents or parts thereof contain information not requiring a security classification or requiring a security classification at a lower level, the different elements shall be identified in a separate check list, stating their respective level of classification. In such a case, each document or data storage media shall bear the highest level of classification of the information contained therein.

A higher classification may be assigned to compilations of documents, which individually require a security classification at a lower level, provided the compilation provides an added factor that warrants a higher classification than that applied to its component parts. However, such classification of compilations shall not exceed the highest classification level provided for under this Contract.

Any uncertainties concerning security classifications to be applied or any proposals for changes or amendments shall be addressed to the Agency's Contracting Unit, the Project Officer and electronically to security@eda.europa.eu .

Classification

The classification level of EUCI to be created under this contract (elements) shall be determined in accordance with this SCG (see the part Elements Table).

The EUCI to be created during the performance of this contract shall be classified at one of the following levels:

SECRET UE/EU SECRET: information and material the unauthorised disclosure of which could seriously harm the essential interests of the European Union or of one or more of the Member States;

CONFIDENTIEL UE/EU CONFIDENTIAL: information and material the unauthorised disclosure of which could harm the essential interests of the European Union or of one or more of the Member States;

RESTREINT UE/EU RESTRICTED: information and material the unauthorised disclosure of which could be disadvantageous to the interests of the European Union or of one or more of the Member States.

Markings

As stated in the CSR, EUCI shall bear a security classification marking in accordance with the rules given in the paragraph above, and it may bear additional markings to designate the field of activity to which it relates, identify the originator, limit distribution, restrict use or indicate releasability. EUCI created during the performance of this contract must bear the originator identifier as explained in the following paragraph.

EDA, as originator, must be clearly identifiable. His originator identifier may be placed alongside or below every occurrence of the security classification marking. Two examples of this are:

RESTREINT UE/EU RESTRICTED – EDA

RESTREINT UE/EU RESTRICTED

EDA

EUCI may bear security caveats in addition to security classification markings .
