1	Question received during the on-site visit: Could you please provide us with the STANAG 3769 document?	To get access to the STANAGs, the tenderers have to contact their national Standardization Organizations in their MODs and they have to follow the regulations concerning the release of NATO STANAGs to the industry. This procedure concerning the release of NATO STANAGs differs between NATO-members, NATO-PfP- and non-PfP-Nations.
